Proposal for a

**COUNCIL DECISION**

**on the position to be taken by the European Union within the Cooperation Committee established by the Agreement on Cooperation and Customs Union between the European Economic Community and their Member States, of the one part, and the Republic of San Marino, of the other part, with regard to the adoption of provisions on the coordination of social security systems**

## EXPLANATORY MEMORANDUM

### 1. CONTEXT OF THE PROPOSAL

#### **Grounds for and objectives of the proposal**

Article 22 of the Cooperation and Customs Union Agreement between the European Community and the Republic of San Marino<sup>1</sup> ("the Agreement"), lays down that the Cooperation Committee shall, by decision, adopt provisions to implement the principles on the coordination of social security systems set out in Article 21 of that Agreement.

#### **General context**

Article 21 of the Agreement with San Marino contains provisions for limited coordination between the social security systems of Member States and San Marino. A Decision of the Cooperation Committee established by the Agreement is required in order that the principles set out in Article 21 can take effect.

A number of other Agreements with third countries contain similar provisions on the coordination of social security systems. This proposal is part of a package of proposals which includes similar proposals with regard to the Agreements with Montenegro, Albania and Turkey. A first package with similar proposals in respect of Algeria, Morocco, Tunisia, Croatia, the former Yugoslav Republic of Macedonia and Israel was adopted by the Council in October 2010.<sup>2</sup>

In order to establish the position to be taken on behalf of the Union in this Cooperation Committee, a Council Decision is necessary.

#### **Existing provisions in the area of the proposal**

At the level of the European Union, Member States' social security systems are coordinated by Regulation (EC) No 883/2004<sup>3</sup> and its implementing Regulation (EC) No 987/2009<sup>4</sup>.

Council Regulation (EU) No 1231/2010<sup>5</sup> extends the provisions of Regulation (EC) No 883/2004 and Regulation (EC) No 987/2009 to nationals of third countries who are not already covered by those provisions solely on the grounds of their nationality. This Regulation already covers the principle of aggregation of insurance periods acquired by workers of San Marino nationality in the various Member States regarding entitlement to certain benefits, as set out in Article 21(2) of the Agreement with San Marino.

#### **Consistency with other policies and objectives of the Union**

<sup>5</sup> OJ L 344, 29.12.2010, p. 1. In accordance with Protocols Nos 21 and 22, Denmark and the United Kingdom are not bound by or subject to the application of Regulation (EU) No 1231/2010. However, the United Kingdom continues to be bound by and subject to the application of the previous Regulation (EC) No 859/2003, OJ L124, 20.5.2003, p.1.

The Agreement with San Marino is aimed at promoting comprehensive cooperation between the EU and San Marino and at contributing to the social and economic development of San Marino, as well as strengthening the relations between the EU and San Marino. Implementation of the social security coordination provisions provided for in Article 21 of the Agreement will enhance the special relationship with San Marino, as envisaged in Article 8 TEU and Declaration No 3 on that provision.

## **2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS**

### **Consultation of interested parties**

The proposal for limited coordination between the social security systems of the Member States and San Marino is modelled almost identically on the package of six draft Association Council Decisions, respectively Stabilisation and Association Council Decisions, in respect of Algeria, Morocco, Tunisia, Croatia, the former Yugoslav Republic of Macedonia and Israel, in respect of which the European Union position was decided by the Council in October 2010. Detailed negotiation took place in Council in 2010 on the content of such decisions. These negotiations were preceded by an intensive discussion with all Member States in the Administrative Commission for the Coordination of Social Security Systems.

### **Collection and use of expertise**

There was no need for external expertise.

### **Impact assessment**

Article 21 of the Agreement with San Marino contains the principles for limited coordination between the social security systems of Member States and San Marino. Additionally, a number of other agreements with third countries contain similar provisions on the coordination of social security systems. All of them require a Decision of the relevant body set up by those agreements so that the coordination principles can take effect.

The aim of the Articles on social security in these agreements is that a worker from the associated country concerned can receive certain social security benefits provided under the legislation of the Member State(s) to which he is or has been subject. This also applies, by way of reciprocity, to an EU national working in the associated country.

As the provisions in the proposals included in the current package of proposals with regard to four countries (San Marino, Montenegro, Albania and Turkey) are almost identical – and also almost identical to the first package of six decisions in respect of Algeria, Morocco, Tunisia, Croatia, the former Yugoslav Republic of Macedonia and Israel adopted by the Council in October 2010, this will facilitate the application of these provisions by Member States' social security institutions. There might be some financial implications for national social security institutions resulting from the application of these proposals, since they have to provide, for example, the benefits as described in Article 21 of the Agreement with San Marino. However, this Article only concerns persons who are or have been contributing to the national social security system of the country concerned, as provided for under its national legislation. In any case, it may be difficult to gauge the precise impact of these proposals on the national social security systems at this stage.

### **3. LEGAL ELEMENTS OF THE PROPOSAL**

#### **Summary of the proposed action**

This proposal consists of a Council Decision on the position to be taken on behalf of the Union within the Cooperation Committee established by the Agreement with San Marino and, in the Annex, of a draft Decision of that Cooperation Committee in the social security field.

The proposed Decision of the Cooperation Committee fulfils the requirement of Article 21 of the Agreement with San Marino for such a Decision, in order to put in place the social security principles contained in that Article. The Decision therefore contains implementing provisions with regard to those provisions of Article 21 of the Agreement with San Marino which are not already covered by Regulation (EU) No 1231/2010.

Moreover, the proposed Decision of the Cooperation Committee ensures that the provisions on the export of benefits and the granting of family benefits also apply, by way of reciprocity, to EU workers legally employed in San Marino and to their family members legally resident in San Marino.

#### **Legal basis**

Article 218(9) of the Treaty on the Functioning of the European Union in conjunction with its Article 79(2)(b). As a consequence, Denmark will not participate in the adoption of this decision. Neither will Ireland and the United Kingdom participate in the adoption of this decision, unless notice is given of the wish to take part in the adoption and application of it. The non-participation of these countries in the Council decision is without prejudice to their participation in the decision of the Cooperation Committee.

#### **Subsidiarity principle**

The Agreement with San Marino provides for principles on coordination of social security systems which have to be applied equally by all Member States. The implementation of these principles should therefore be submitted to uniform conditions, which can be better achieved at Union level.

#### **Proportionality principle**

The proposal complies with the proportionality principle for the following reasons.

Member States continue to have exclusive competence in determining, organising and financing their national social security systems.

The proposal only organises to some extent the coordination of social security systems of Member States and San Marino, to the benefit of the citizens of these countries. Moreover, the proposal does not affect any rights and obligations arising from a bilateral social security agreement concluded between a Member State and San Marino where the latter provides for more favourable treatment of the persons concerned.

The proposal minimises the financial and administrative burden for national authorities, as it is part of a package of similar proposals which ensure a uniform application of social security provisions contained in Association Agreements with third countries.

## **Choice of instruments**

Proposed instruments: Council Decision (containing in Annex a draft Cooperation Committee Decision).

Other means would not be adequate for the following reason.

There is no alternative option to the proposed action. Article 21 of the Agreement requires a Decision of the Co-operation Committee. Article 218(9) of the Treaty on the Functioning of the European Union provides for a Council Decision for the purpose of establishing the positions to be adopted on behalf of the European Union in a body set up by a agreement, when that body is called upon to adopt decisions having legal effects.

## **4. BUDGETARY IMPLICATION**

The proposal has no implications for the budget of the European Union.

## **5. OPTIONAL ELEMENTS**

### **Simplification**

The proposal will lead to simplification of administrative procedures for national public authorities and simplification of administrative procedures for private parties.

The provisions in the proposal relating to the coordination of social security systems for nationals of San Marino nationality are almost identical to those for the nationals of the other associated countries. This will lead to a simplification of the procedures and fewer administrative burdens for national social security institutions.

Persons falling under the proposal are not confronted with different national provisions as regards the social security principles contained in Article 21 of the Agreement with San Marino, and can therefore rely instead on uniform provisions within the Community.
