Proposal for a

COUNCIL DIRECTIVE

**on the common system of taxation applicable in the case of parent companies and
subsidiaries of different Member States**

(Codified version)

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. In the context of a people's Europe, the Commission attaches great importance to simplifying and clarifying Community law so as to make it clearer and more accessible to the ordinary citizen, thus giving him new opportunities and the chance to make use of the specific rights it gives him.

This aim cannot be achieved so long as numerous provisions that have been amended several times, often quite substantially, remain scattered, so that they must be sought partly in the original instrument and partly in later amending ones. Considerable research work, comparing many different instruments, is thus needed to identify the current rules.

For this reason a codification of rules that have frequently been amended is also essential if Community law is to be clear and transparent.

2. On 1 April 1987 the Commission therefore decided¹ to instruct its staff that all legislative acts should be codified after no more than ten amendments, stressing that this is a minimum requirement and that departments should endeavour to codify at even shorter intervals the texts for which they are responsible, to ensure that the Community rules are clear and readily understandable.

3. The Conclusions of the Presidency of the Edinburgh European Council (December 1992) confirmed this², stressing the importance of codification as it offers certainty as to the law applicable to a given matter at a given time.

Codification must be undertaken in full compliance with the normal Community legislative procedure.

Given that no changes of substance may be made to the instruments affected by codification, the European Parliament, the Council and the Commission have agreed, by an interinstitutional agreement dated 20 December 1994, that an accelerated procedure may be used for the fast-track adoption of codification instruments.

4. The purpose of this proposal is to undertake a codification of Council Directive 90/435/EEC of 23 July 1990 on the common system of taxation applicable in the case of parent companies and subsidiaries of different Member States³. The new Directive will supersede the various acts incorporated in it⁴; this proposal fully preserves the content of the acts being codified and hence does no more than bringing them together with only such formal amendments as are required by the codification exercise itself.

¹ COM(87) 868 PV.

² See Annex 3 to Part A of the Conclusions.

³ Carried out pursuant to the Communication from the Commission to the European Parliament and the Council – Codification of the Acquis communautaire, COM(2001) 645 final.

⁴ Annex II, Part A of this proposal.

5. The codification proposal was drawn up on the basis of a preliminary consolidation, in all official languages, of Directive 90/435/EEC and the instruments amending it, carried out by the Office for Official Publications of the European Communities, by means of a data-processing system. Where the Articles have been given new numbers, the correlation between the old and the new numbers is shown in a table contained in Annex III to the codified Directive.

Proposal for a

COUNCIL DIRECTIVE

on the common system of taxation applicable in the case of parent companies and subsidiaries of different Member States

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 94 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament¹,

Having regard to the opinion of the European Economic and Social Committee²,

Whereas:

↓

- (1) Council Directive 90/435/EEC of 23 July 1990 on the common system of taxation applicable in the case of parent companies and subsidiaries of different Member States³ has been substantially amended several times⁴. In the interests of clarity and rationality the said Directive should be codified.

↓ 90/435/EEC Recital 1 (adapted)

- (2) The grouping together of companies of different Member States may be necessary in order to create within the Community conditions analogous to those of an internal market and in order thus to ensure the effective functioning of such an internal market. Such operations ought not to be hampered by restrictions, disadvantages or distortions arising in particular from the tax provisions of the Member States. It is

³ OJ L 225, 20.8.1990, p. 6. Directive as last amended by Directive 2006/98/CE (OJ L 363, 20.12.2006, p. 129).

therefore necessary, with respect to such grouping together of companies of different Member States, to provide for tax rules which are neutral from the point of view of competition, in order to allow enterprises to adapt to the requirements of the internal market, to increase their productivity and to improve their competitive strength at the international level.

↓ 90/435/EEC Recital 2

- (3) Such grouping together may result in the formation of groups of parent companies and subsidiaries.
-

↓ 90/435/EEC Recital 3 (adapted)

- (4) Before entry into force of Directive 90/435/EEC, the tax provisions which governed the relations between parent companies and subsidiaries of different Member States varied appreciably from one Member State to another and were generally less advantageous than those applicable to parent companies and subsidiaries of the same Member State. Cooperation between companies of different Member States was thereby disadvantaged in comparison with cooperation between companies of the same Member State. It was necessary to eliminate that disadvantage by the introduction of a common system in order to facilitate the grouping together at Community level of companies.
-

↓ 90/435/EEC Recital 4

- (5) Where a parent company by virtue of its association with its subsidiary receives distributed profits, the State of the parent company must either refrain from taxing such profits, or tax such profits while authorising the parent company to deduct from the amount of tax due that fraction of the corporation tax paid by the subsidiary which relates to those profits.
-

↓ 90/435/EEC Recital 5 (adapted)

- (6) It is furthermore necessary, in order to ensure fiscal neutrality, that the profits which a subsidiary distributes to its parent company be exempt from withholding tax.
-

↓ 2003/123/EC Recital 8

- (7) The payment of profit distributions to, and their receipt by, a permanent establishment of a parent company should give rise to the same treatment as that applying between a subsidiary and its parent. This should include the situation where a parent company and its subsidiary are in the same Member State and the permanent establishment is in another Member State. On the other hand, it appears that situations where the permanent establishment and the subsidiary are situated in the same Member State,

can, without prejudice to the application of the Treaty principles, be dealt with on the basis of national legislation by the Member State concerned.

↓ 2003/123/EC Recital 9

- (8) In relation to the treatment of permanent establishments Member States may need to determine the conditions and legal instruments in order to protect the national tax revenue and fend off circumvention of national laws, in accordance with the Treaty principles and taking into account internationally accepted tax rules.
-

↓ 2003/123/EC Recital 10

- (9) When corporate groups are organised in chains of companies and profits are distributed through the chain of subsidiaries to the parent company, double taxation should be eliminated either by exemption or tax credit. In the case of tax credit the parent company should be able to deduct any tax paid by any of the subsidiaries in the chain provided that the requirements set out in this Directive are met.
-

↓

- (10) This Directive should be without prejudice to the obligations of the Member States relating to the time-limits for transposition into national law of the Directives set out in Annex II, Part B,
-

↓ 90/435/EEC

HAS ADOPTED THIS DIRECTIVE:

2. This Directive shall not preclude the application of domestic or agreement-based provisions required for the prevention of fraud or abuse.

Article 2

For the purposes of this Directive ☒ the following definitions shall apply: ☒

- (a) “company of a Member State” means any company which:
- (i) takes one of the forms listed in Annex I, Part A ;

second part

- (b) “permanent establishment” means a fixed place of business situated in a Member State through which the business of a company of another Member State is wholly or partly carried on in so far as the profits of that place of business are subject to tax in the Member State in which it is situated by virtue of the relevant bilateral tax treaty or, in the absence of such a treaty, by virtue of national law;
-

↓ 2003/123/EC Art. 1 pt. 3
(adapted)

- (c) “subsidiary” means that company the capital of which includes the holding referred to in points (a) and (b) of Article 3(1).

Article 3

1. For the purposes of applying this Directive the status of parent company shall be attributed .

- (a) at least to any company of a Member State which fulfils the conditions set out in Article 2 and has a minimum holding of 15 % in the capital of a company of another Member State fulfilling the same conditions;
- (b) under the same conditions, to a company of a Member State which has a minimum holding of 15 % in the capital of a company of the same Member State, held in whole or in part by a permanent establishment of the former company situated in another Member State.

From 1 January 2009 the minimum holding percentage referred to in points (a) and (b) shall be 10%.

↓ 90/435/EEC

2. By way of derogation from paragraph 1, Member States shall have the option of:

- (a) replacing, by means of bilateral agreement, the criterion of a holding in the capital by that of a holding of voting rights;
- (b) not applying this Directive to companies of that Member State, which do not maintain for an uninterrupted period of at least two years holdings qualifying them as parent companies, or to those of their companies in which a company of another Member State does not maintain such a holding for an uninterrupted period of at least two years.

Article 4

↓ 2003/123/EC Art. 1 pt. 4(a) (adapted)
--

1. Where a parent company or its permanent establishment, by virtue of the association of the parent company with its subsidiary, receives distributed profits, the State of the parent company and the State of its permanent establishment shall, except when the subsidiary is liquidated, either:

- (a) refrain from taxing such profits; or
- (b) tax such profits while authorising the parent company and the permanent establishment to deduct from the amount of tax due that fraction of the corporation tax related to those profits and paid by the subsidiary and any lower-tier subsidiary, subject to the condition that at each tier a company and its lower-tier subsidiary

☒ fall within the definitions laid down in Article 2 and ☒ meet the requirements provided for in Article 3, up to the limit of the amount of the corresponding tax due.

↓ 2003/123/EC Art. 1 pt. 4(b)
(adapted)

2. Nothing in this Directive shall prevent the State of the parent company from considering a subsidiary to be fiscally transparent on the basis of that State's assessment of the legal characteristics of that subsidiary arising from the law under which it is constituted and therefore from taxing the parent company on its share of the profits of its subsidiary as and when those profits arise. In this case the State of the parent company shall refrain from taxing the distributed profits of the subsidiary.

When assessing the parent company's share of the profits of its subsidiary as they arise the State of the parent company shall either exempt those profits or authorise the parent company to deduct from the amount of tax due that fraction of the corporation tax related to the parent company's share of profits and paid by its subsidiary and any lower-tier subsidiary, subject to the condition that at each tier a company and its lower-tier subsidiary ☒ fall within the definitions laid down in Article 2 and ☒ meet the requirements provided for in Article 3, up to the limit of the amount of the corresponding tax due.

↓ 90/435/EEC (adapted)
→₁ 2003/123/EC Art. 1 pt. 4(c)

3. ☒ In applying paragraphs 1 and 2 ☒ each Member State shall retain the option of providing that any charges relating to the holding and any losses resulting from the distribution of the profits of the subsidiary may not be deducted from the taxable profits of the parent company.

Where the management costs relating to the holding in such a case are fixed as a flat rate, the fixed amount may not exceed 5 % of the profits distributed by the subsidiary.

4. →₁ Paragraphs 1, 2 ☒ and 3 ☒ shall apply until the date of effective entry into force of a common system of company taxation. ←

5. The Council shall at the appropriate time adopt the rules to apply after the ☒ entry into force of a common system of company taxation ☒.
